

Moda

A sculpted, mixed materials collection.

furniture for **business interiors**

Moda

Sculpted. Linear. Elegant.

✚ The Moda guest chair comes with a beautifully sculpted wood back, arms and front legs. The lounge collection, which includes single, double and triple seat models, is offered with a fully upholstered back with wood arm accents complementing those of the guest chair.

✚ Unique wood arm design is created using chamfers that bevel front to rear.

✚ Guest - Clean linear details are complemented by the sculpted curve of the back and seat.

✚ Rear leg and frame foundation of metal skillfully accents the wood back and leg elements. The combination of mixed materials provides strength, warmth and elegant lines within complementary components.

✚ With three metal finishes and all standard JSI wood finishes available on maple, Moda coordinates with casegood and conference products from JSI. Mix and match wood finishes with upholstery to specify luxurious and lavish to simple and elegant.

✚ Single seat lounge chair is available with removable seat cushion for easy cleaning.

Moda by JSI was inspired by the desire for a visually simplistic guest chair. The result is a design with clean linear architectural details and a beautifully sculpted wood back, created from mixed materials and available in a full range of coordinated seating. Guest seating is offered with wood back style while the lounge collection offers fully upholstered single, double and triple seat models. With its shapely curves and elegant lines, Moda accentuates spaces from guest to conference to lounge.

Guest chair and lounge collection designed by John Stafford/Chris Carter Design, LLC.

Single, double and triple seat lounge models are fully upholstered with wood arms and visible metal details.

Guest chair available with arcing wood back.

Metal frames and reinforced wood joints provide structural strength that exceeds BIFMA standards.

Wood elements in maple with coordinating JSI wood finishes match casegood and conference offerings.

Single seat lounge chairs are available with removable seat cushions for cleanability.

Choose from three metal finishes: silver, nickel or black.
